

Islamic Finance Professional Development Programme (IFPDP) Brochure 2019

This is an online programme with all the flexibility you need. It is designed to get you an insight into the core concepts of Islamic finance, one of the rapidly growing segments of the global finance industry.

Why do we learn about Islamic banking and finance?

In a global extent, there is a great demand for a fair and just banking system that the Islamic banking and finance industry offers.

As this demand continues to increase, so does the awareness of the timeless principles and values of Islamic finance. Built upon the foundation of Islamic law (Shariah principles), which prohibits usurious and speculative activities, the Islamic finance industry prides itself on engaging in business and financial dealings in an ethical way. The core of this industry sector is not one of greed, but one of mutual collaboration and partnership through a fair and equitable financial system. The Islamic finance industry has accomplished such growth that it is now an astounding 2.5 trillion-dollar global industry. Not only is this the fastest growing segment of the financial industry, but it is also socially responsible and sustainable.

Outcomes of the programme:

1. Understand the objectives of Islamic finance in contemporary society;
2. To identify and describe the main principles and prohibitions in Islamic banking and finance;
3. To develop an understanding of how different models of Islamic financing work;
4. Compare and contrast different banking and finance products and services with regards to different industry standards and practices;
5. Develop confidence in interpreting features of each model of Islamic financing; and
6. Apply rules of Islamic banking on contemporary transactions and analyze them for Shariah compliance.
